

## Application for online access to my medical record

You can order your repeat prescriptions and make appointments online. You can also now view your GP medical record online to look at test results, details of consultations and your medical history, including current and past medication.

If you would like to have secure online access to your records, we need to make sure that you understand what this involves and that you are happy for us to use the information about you (provided below) to set up the and operate the service.

The following form will take you through the things you need to think about. By signing the form you will be giving us your permission to go ahead with setting up the service for you. If you decide not to join, or wish to withdraw, it will not affect your treatment in any way.

Access is granted at the discretion of the practice. Your request for access may take up to 14 working days to process.

The practice follows NHS England guidance and requires two forms of identification in order to register for online services as evidence of identity and one of these must contain a photo eg passport, driving licence, bank statement. To ensure the highest level of security, we require patients requesting access to their medical record, who have already signed up to repeat prescriptions and/or appointments, to show two forms of identification again in order to have this access extended to detailed coded medical record access.
